

The L-740 Series Accessories

L-107XL Instrument Stand
L-107XL2 Instrument Stand
L-107X Translation Slide
L-107XY Translation Slide

Provides stability and additional features for Hamar Laser's continuously rotating lasers

L-107 Instrument Stand Features

■ Two versions

- L-107XL with adjustable stand height from 36 to 53 in. (914 to 1,346 mm)
- L-107XL2 with adjustable stand height from 42 to 67 in. (1092 to 1702 mm)
- Provides a stable platform for all of Hamar Laser's continuously rotating laser plane systems.
- Drop-down wheels with foot lock for easy movement between setups.
- Spring loaded rack lock.
- Air cushioned moving column with free fall prevention.
- Easy disassembly for shipping with only nine bolts, so it can be shipped flat.

L-107X Single-Axis Translation Slide

- Allows the laser to slide back and forth in one axis without changing angle. Used mainly for sawmills, roll alignment and gantry master-to-slave rail parallelism checking.

L-107XY Two-Axis Translation Slide

- Allows the laser to slide back and forth in two axes (X and Y) without changing angle. Used mainly for roll alignment and gantry master-to-slave rail parallelism checking.
